Remote controller 0-10V type: HF10 F IP66

with LED ON/OFF switch and LED-display

Item-No.   18069433

FISCHBACH
Luft- und Ventilatorentechnik GmbH

The Fischbach remote controller HF10F IP66 with blue LED display ON/OFF-switch (0-1) and additional yellow LED display for other functions (pressure switch) contains a 10 kΩ potentiometer for output 0-10 V and input 10V.

Technical information:

– ON/OFF switch voltage/current: 250VAC/10A
– Isolationclass II
– Potentiometer 10kΩ with scale 0-10, Resistance tolerance: ±10%
– Monoblock housing
– Mounting in any position possible
– Control: linear
– LED display 250VAC
