

FISCHBACH

Luft- und Ventilatorentechnik GmbH **made in germany**

▶ Kitchen exhaust control as easy as never before. The new Fischbach EC speed controller HF10L IP66

The new Fischbach EC-speed controller HF10L IP66 convinces not only with the robust design and the high protection class IP66, but above all with its sophisticated concept of multifunctional operation in the field of professional kitchen exhaust air. The additional blue illuminated LED switch can be used for lighting of the kitchen hood or even other consumers. Thus, the further attachment of bulky wet room surface-mounted switches with a lower degree of protection is unnecessary.

Benefit from the new HF10L IP66

- compact design
- integrated LED light switch
- robust processing
- high degree of protection IP66
- with high quality potentiometer 0-10V
- high stock availability
- low installation costs
- suitable for all EC Motors

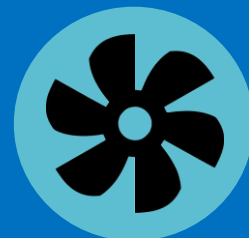

PRODUCT RELEASE 2018

For use with EC fans of all manufacturers and fans with frequency converter control.
